1. The Glenwood state resource center and the Woodward state resource center are established and shall be maintained as the state's regional resource centers for the purpose of providing treatment, training, instruction, care, habilitation, and support of persons with mental retardation or other disabilities in this state, and providing facilities, services, and other support to the communities located in the region being served by a state resource center. In addition, the state resource centers are encouraged to serve as a training resource for community-based program staff, medical students, and other participants in professional education programs. A resource center may request the approval of the council on human services to change the name of the resource center for use in communication with the public, in signage, and in other forms of communication.

2. A special mental retardation unit may be maintained at one of the state mental health institutes for the purposes set forth in sections 222.88 to 222.91.

Such a preliminary investigation shall also be conducted in the event of a sudden or mysterious death of a patient in a private institution for persons with mental retardation. The chief administrative officer of any private institution may request an investigation of the death of any patient by the county medical examiner.

2. Notice of the death of the patient, and the cause of death, shall be sent to the county board of supervisors and to the judge of the court that had jurisdiction over a committed patient. The fact of death with the time, place, and alleged cause shall be entered upon the docket of the court.

3. The parent, guardian, or other person responsible for the admission of a patient to a private institution for persons with mental retardation may also request such a preliminary investigation by the county medical examiner in the event of the death of the patient that is not sudden or mysterious. The person or persons making the request are liable for the expense of such preliminary investigation and payment for the expense may be required in advance.

222.13 Voluntary admissions.

1. If an adult person is believed to be a person with mental retardation, the adult person or the adult person's guardian may submit a request through the central point of coordination process for the county board of supervisors to apply to the superintendent of any state resource center for the voluntary admission of the adult person either as an inpatient or an outpatient of the resource center. After determining the legal settlement of the adult person as provided by this chapter, the board of supervisors shall, on forms prescribed by the administrator, apply to the superintendent of the resource center in the district for the admission of the adult person to the resource center. An application for admission to a special unit of any adult person believed to be in need of any of the services provided by the special unit under section 222.88 may be made in the same manner, upon request of the adult person or the adult person's guardian. The superintendent shall accept the application providing a preadmission diagnostic evaluation, performed through the central point of coordination process, confirms or establishes the need for admission, except that an application may not be accepted if the institution does not have adequate facilities available or if the acceptance will result in an overcrowded condition.

2. If the resource center has no appropriate program for the treatment of an adult or minor person with mental retardation applying under this section or section 222.13A, the board of supervisors shall arrange for the placement of the person in any public or private facility within or without the state, approved by the director of the department of human services, which offers appropriate services for the person, as determined through the central point of coordination process.

3. Upon applying for admission of an adult or minor person to a resource center, or a special unit, or upon arranging for the placement of the person in a public or private facility, the board of supervisors shall make a full investigation into the financial circumstances of that person and those liable for that person's support under section 222.78 to determine whether or not any of them are able to pay the expenses arising out of the admission of the person to a resource center, special treatment unit, or public or private facility. If the board finds that the person or those legally responsible for the person are presently unable to pay the expenses, the board shall direct that the expenses be paid by the county. The board may review its finding at any subsequent time while the person remains at the resource center, or is otherwise receiving care or treatment for which this chapter obligates the county to pay. If the board finds upon review that the person or those legally responsible for the person are presently able to pay the expenses, the finding shall apply only to the charges incurred during the period beginning on the date of the review and continuing thereafter, unless and until the board again changes its finding. If the board finds that the person or those legally responsible for the person are able to pay the expenses, the board shall direct that the charges be so paid to the extent required by section 222.78, and the county auditor shall be responsible for the collection of the charges.

[C24, 27, 31, 35, 39, §3464, 3477.2; C46, 50, 54, 58, 62, §222.54, 223.13; C66, 71, 73, 75, 77, 79, 81, §222.13]

222.13A Voluntary admissions — minors.

1. If a minor is believed to be a person with mental retardation, the minor's parent, guardian, or custodian may request the county board of supervisors to apply for admission of the minor as a voluntary patient in a state resource center. If the resource center does not have appropriate services for the minor's treatment, the board of supervisors may arrange for the admission of the minor in a public or private facility within or without the state, approved by the director of human services, which offers appropriate services for the minor's treatment.

2. Upon receipt of an application for voluntary admission of a minor, the board of supervisors shall provide for a preadmission diagnostic evaluation of the minor to confirm or establish the need for the admission. The preadmission diagnostic evaluation shall be performed by a person who meets the qualifications of a qualified mental retardation professional who is designated through the central point of coordination process.

3. During the preadmission diagnostic evaluation, the minor shall be informed both orally and in writing that the minor has the right to object to the voluntary admission. If the preadmission diagnostic evaluation determines that the voluntary admission is appropriate but the minor objects to the admission, the minor shall not be admitted to the state resource center unless the court approves of the admission. A petition for approval of the minor's admission may be submitted to the juvenile court by the minor's parent, guardian, or custodian.

4. As soon as practicable after the filing of a petition for approval of the voluntary admission, the court shall determine whether the minor has an attorney to represent the minor in the proceeding. If the minor does not have an attorney, the court shall assign to the minor an attorney. If the minor is unable to pay for an attorney, the attorney shall be compensated by the county at an hourly rate to be established by the county board of supervisors in substantially the same manner as provided in section 815.7.

5. The court shall order the admission of a minor who objects to the admission, only after

a hearing in which it is shown by clear and convincing evidence that both of the following circumstances exist:

- a. The minor needs and will substantially benefit from treatment or habilitation.
- b. A placement which involves less restriction of the minor's liberties for the purposes of treatment or habilitation is not feasible.

222.14 Care by county pending admission.

If the institution is unable to receive a patient, the superintendent shall notify the county board of supervisors of the county from which the application in behalf of the prospective patient was made of the time when such person may be received. Until such time as the patient is able to be received by the institution, or when application has been made for admission to a public or private facility as provided in section 222.13 and the application is pending, the care of said person shall be provided as arranged by the county board of supervisors.

[C24, 27, 31, 35, 39, §3433; C46, 50, 54, 58, 62, §222.23; C66, 71, 73, 75, 77, 79, 81, §222.14]

222.15 Discharge of patients admitted voluntarily.

This section applies to any person who was voluntarily admitted to a state resource center or other facility in accordance with the provisions of section 222.13 or 222.13A. Except as otherwise provided by this section, if the person or the person's parent, guardian, or custodian submits a written request for the person's release, the person shall be immediately released.

1. If the person is an adult and was admitted pursuant to an application by the person or the person's guardian and the request for release is made by a different person, the release is subject to the agreement of the person voluntarily admitted or the person's guardian, if the guardian submitted the application.

2. If the person is a minor who was admitted pursuant to the provisions of section 222.13A, the person's release prior to becoming eighteen years of age is subject to the consent of the person's parent, guardian, or custodian, or to the approval of the court if the admission was approved by the court.

3. a. If the administrator of the facility in which the patient is admitted certifies that in the administrator's opinion the release of the person would be contrary to the safety of the person or the community, the release may be postponed by a court order. The administrator's certification shall be filed with the clerk of the district court for the county in which the facility is located no later than one day following the submission of the written request for release. The period of postponement shall be the period of time the court determines necessary to permit the commencement of judicial proceedings for the person's involuntary commitment. The period of postponement shall not exceed five days unless the period of postponement is extended by court order for good cause shown.

b. If a petition for the person's involuntary commitment is timely filed, the administrator may detain the person in the facility and provide treatment until disposition of the petition. The treatment shall be limited to that necessary to preserve the person's life or to appropriately control behavior by the person which is likely to result in physical injury to the person or to others if allowed to continue. The administrator shall not otherwise provide treatment to the person without the person's consent.

A petition for the adjudication of the mental retardation of a person within the meaning of this chapter may, with the permission of the court, be filed without fee against a person with the clerk of the district court of the county or city in which the person who is alleged to have mental retardation resides or is found. The petition may be filed by any relative of the person,

by a guardian, or by any reputable citizen of the county where the person who is alleged to have mental retardation resides or is found.

Commitment of a person pursuant to section 222.31 does not constitute a finding or raise a presumption that the person is incompetent to vote. The court shall make a separate determination as to the person's competency to vote. The court shall find a person incompetent to vote only upon determining that the person lacks sufficient mental capacity to comprehend and exercise the right to vote.

An order or findings by a referee pursuant to this chapter may be appealed to a judge of the district court by filing notice with the clerk of the district court within seven days after the findings or order is made, and hearing by the district court shall be de novo. 5. List the names of all obtainable witnesses known to the petitioner by which the allegations of the petition may be established.
6. State whether such person has been examined by a qualified physician with a view of determining the person's mental condition.

If the person has not been examined by a commission as appointed in section 222.28, the court shall, prior to issuing an order of commitment, appoint such a commission to examine the person for the purpose of determining the mental condition of the person. The court may, upon request of the board of supervisors, review its finding at any subsequent time while the person remains at the resource center, or is otherwise receiving care or treatment for which this chapter obligates the county to pay. If the court finds upon review that the person or those legally responsible for the person are presently able to pay the expenses, that finding shall apply only to the charges incurred during the period beginning on the date of the board's request for the review and continuing thereafter, unless and until the court again changes its finding. Following the initial approval for payment of expenses, the county of legal settlement may require that an evaluation be performed at reasonable time periods.

222.73 Billing of patient charges — computation of actual costs — cost settlement.

1. The superintendent of each resource center and special unit shall compute by February 1 the average daily patient charge and outpatient treatment charges for which each county will be billed for services provided to patients chargeable to the county during the fiscal year

beginning the following July 1. The department shall certify the amount of the charges and notify the counties of the billing charges.

a. The superintendent shall compute the average daily patient charge for a resource center or special unit for services provided in the following fiscal year, in accordance with generally accepted accounting procedures, by totaling the expenditures of the resource center or special unit for the immediately preceding calendar year, by adjusting the expenditures by a percentage not to exceed the percentage increase in the consumer price index for all urban consumers for the immediately preceding calendar year, and by dividing the adjusted expenditures by the total inpatient days of service provided during the immediately preceding calendar year.

b. The department shall compute the outpatient treatment charges, in accordance with generally accepted accounting procedures, on the basis of the actual cost of the outpatient treatment provided during the immediately preceding calendar year.

2. a. The superintendent shall certify to the department the billings to each county for services provided to patients chargeable to the county during the preceding calendar quarter. The county billings shall be based on the average daily patient charge and outpatient treatment charges computed pursuant to subsection 1, and the number of inpatient days and outpatient treatment service units chargeable to the county. The billings to a county of legal settlement are subject to adjustment for all of the following circumstances:

(1) The county billing for a patient shall be reduced by the amount received for the patient's care from a source other than state appropriated funds.

(2) If more than twenty percent of the cost of a patient's care is initially paid from a source other than state appropriated funds, the amount paid shall be subtracted from the average per-patient-per-day cost of that patient's care and the patient's county shall be billed for the full balance of the cost so computed.

(3) The county of a patient who is eligible for reimbursement under the medical assistance program shall be responsible for the costs which are not reimbursed by the medical assistance program, regardless of the level of care provided to the patient.

(4) A county shall be responsible for eighty percent of the cost of care of a patient who is not eligible for reimbursement under the medical assistance program.

(5) The billings for counties shall be credited with one hundred percent of the client participation for patients eligible for medical assistance in the calculation of the per diem rate for patients.

(6) A county shall not be billed for the cost of a patient unless the patient's admission is authorized through the applicable central point of coordination process. The state resource center and the county shall work together to locate appropriate alternative placements and services, and to educate patients and the family members of patients regarding such alternatives.

b. The per diem costs billed to each county shall not exceed the per diem costs billed to the county in the fiscal year beginning July 1, 1996. However, the per diem costs billed to a county may be adjusted in a fiscal year to reflect increased costs to the extent of the percentage increase in the total of county fixed budgets pursuant to the allowed growth factor adjustment authorized by the general assembly for that fiscal year in accordance with section 331.439.

3. The superintendent shall compute in January the actual per-patient-per-day cost for each resource center or special unit for the immediately preceding calendar year, in accordance with generally accepted accounting procedures, by totaling the actual expenditures of the resource center or special unit for the calendar year and by dividing the total actual expenditures by the total inpatient days of service provided during the calendar year.

4. The department shall certify to the counties by February 1 the actual per-patient-per-day costs, as computed pursuant to subsection 3, and the actual costs owed by each county for the immediately preceding calendar year for patients chargeable to the county. If the actual costs owed by the county are greater than the charges billed to the county pursuant to subsection 2, the department shall bill the county for the difference with the billing for the quarter ending June 30. If the actual costs owed by the county are less than the charges billed to the county

pursuant to subsection 2, the department shall credit the county for the difference starting with the billing for the quarter ending June 30.

5. A superintendent of a resource center or special unit may request that the director of human services enter into a contract with a person for the resource center or special unit to provide consultation or treatment services or for fulfilling other purposes which are consistent with the purposes stated in section 222.1. The contract provisions shall include charges which reflect the actual cost of providing the services. Any income from a contract authorized under this subsection may be retained by the resource center or special unit to defray the costs of providing the services or fulfilling the other purposes. Except for a contract voluntarily entered into by a county under this subsection, the costs or income associated with a contract authorized under this subsection shall not be considered in computing charges and per diem costs in accordance with the provisions of subsections 1 through 4.

The county auditor upon receipt of the duplicate certification statement shall enter it to the credit of the state in the ledger of state accounts, and shall immediately issue a notice to the county treasurer authorizing the treasurer to transfer the amount from the county fund to the general state revenue. The county treasurer shall file the notice as authority for making the transfer and shall include the amount transferred in the next remittance of state taxes to the treasurer of state, designating the fund to which the amount belongs.

The liability of any person, other than the patient, who is legally bound for the support of a patient who is under eighteen years of age in a resource center or a special unit shall not exceed the average minimum cost of the care of a normally intelligent minor without a disability of the same age and sex as the minor patient. The administrator shall establish the scale for this purpose but the scale shall not exceed the standards for personal allowances established by the state division under the family investment program.
